

### Irish Open Streamer/Vlogger Guidelines

The only language that may be spoken in the tournament area for an Event is the official tournament language of English.

It is essential for Media Representatives and Vloggers to respect the players and the integrity of all Events. This includes, but is not limited to:

- Respecting the right of a player to have a reasonable amount of personal space while playing
- Respecting the right of a player to maintain the privacy of their hole cards
- Respecting players' decisions so that they are not verbally judged at the table by observers
- Respecting the emotional engagement of players by not visibly or audibly “celebrating” if a particular player wins a pot

We require that all Media Representatives and Vloggers give the Irish Open mentions on social media by tagging @Irish\_PokerOpen in every tweet they publish about the Event on Twitter and by tagging @IrishPokeropen in the copy of any posts they publish about the Event on Instagram. In addition, any social media posts about the Event including vlogs etc must include the relevant Event hashtag.

When an Event is being broadcast live on a delay (cards-up\*\*), Media Representatives and Streamers/Vloggers must follow the delay with their live reporting of the Event. This is to keep to the same schedule as broadcasters receiving and transmitting the feed. This delay applies to all/any live reporting, blogs, social media posts and live streaming platforms

Any Media Representative or Vlogger that fails to comply with any provision of our guidelines or fails to comply with a request from a member of our staff will have their ability to stream/vlog revoked for the duration of the Event and risks being banned from future Events.

Should you have any queries with regards to the above please email [info@Irishpokeropen.com](mailto:info@Irishpokeropen.com)
